SEE IT. SHARE IT. SOLVE IT.

A smart IoT device for Digital Pathology and Hematology Image Analysis for **Real Time Remote Viewing**.

Innovation with Integrity

Lab Life, Upgraded!
Real-Time Digital Microscopy in Action.

Experience **NED Real-Time Digital Microscope** - where speed, accuracy and collaboration meet.

Take our **5-Question Challenge** to uncover YOUR lab's **biggest pain points** – and we'll show you a customized demo that solves them.

SCHEDULE A DEMO!

neddigitalmicroscope.com

NED-DP for Digital Pathology

NED-DH for Digital Hematology

With NED, labs are saying:

- "No more wiping the scope."
- "We operate like a BIG lab affordably."
- "Yes, abnormal red cells counted!"

Diagnostics shouldn't mean:

- Neck strain from the scope
- Endless stain changes
- Waiting hours for reviews
- Courier costs
